

Want to attract new members and grow funds for your Club?

Research tells us that many people are not really sure what Rotary is, or does. If we want to communicate Rotary's message clearly and effectively, we need good promotional material.

It is essential too, that our printed material has a look and feel that relates to "Downunder".

Many clubs just can't afford this cost.

Here is an opportunity to achieve high quality promotional material at little cost (there is a space for adding individual club details).

Descriptive and good quality collateral is a vital component when delivering a message to potential new members.

A credible image is also fundamental to attracting donations from the local community, reassuring them that these funds get into the right hands.

The Package includes-

300 high quality brochures (four colours + gold)
Two 1188x 840mm posters (four colours matt laminated)

For only **\$150.00**
